To prepare for this exam, you must perform the following tasks:

- Know the material presented in the course manual
- Gain hands-on experience using the Cúram runtime environment
- Familiarize yourself with the key business guides in the Cúram Documentation Center™

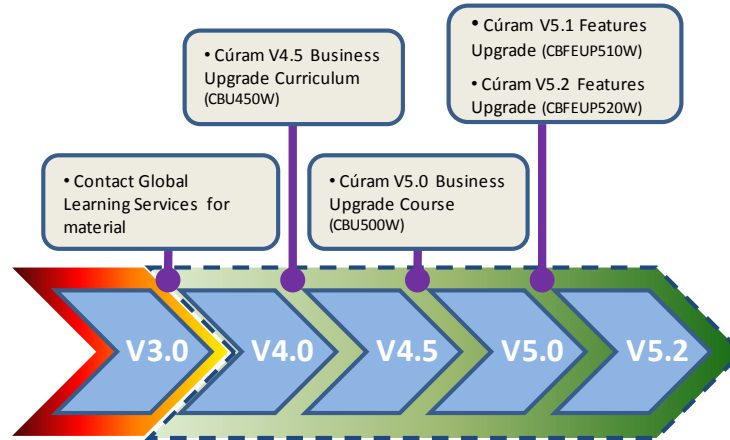

The amount of exam preparation time depends on the individual candidate. However, you must be prepared to spend on average 8 hours a week for 8 weeks to prepare for the exam.

Maintaining certification status

Certifications are currently valid for all 5.x (V5.2, V5.1 and V5.0) and 4.x (V4.5 and V4.0) versions of the product. Certifications for versions 4.x will remain valid until release 6.0. This policy is in line with the end-of-life support policy for product versions. It is recommended that you maintain your certification on the latest version to keep up-to-date on the latest developments with the new functionality and changes introduced in the various releases of the product.
